Executive Summary

Executive Summary

- The response rate was 88% (86% in 2021), which is an excellent response rate.
- The 2022 overall engagement score is 42% (44% in 2021).
- There is a wide spread of engagement scores among groups – from 11% (Group I) to 77% (Group H).
- Engagement by employment type shows that engagement of Casuals is highest at 53% (up 15% from 2021), followed by Temp/Contract at 39% (-6% from 2021) and Regular employees at 39% (-6% from 2021).

Executive Summary (cont.)

- The pattern for engagement by generation shows that engagement is lowest among Gen X (27%) and highest among Matures (80%).
- The pattern for engagement by years of service is fairly typical – that is, engagement is usually higher at the beginning (61% for less than 1 year service), often dips after 2 to 3 years (lowest among those with 6–10 years service) and is often highest closer to retirement (80%).
- The highest level of engagement by job level is for Senior Manager at 60% (down 28%), but then dips to 14% People Leaders (down 17% and the lowest engagement score).
- Note: Island Inc. has a few relatively small groups so that one person can have a major impact on results. For example, in a group of 7 respondents, 1 respondent represents 14% of the total result.
